

HEALTHY HOME SERVICES

This is our menu of options that we offer families to learn about the health of your home.

Through our services, you can learn more about the presence of lead, mold, radon, carbon monoxide and other indoor environmental health hazards.

♥ STANDARD HEALTHY HOME ASSESSMENT

This assessment educates families about the connection between health and home hazards and suggests low cost solutions.

ADD-ON SERVICES

Lead Dust Wipes • XRF Sampling • Radon Test

♥ LEAD HAZARD EVALUATION

This evaluation is for families who want more information about lead that goes beyond the Standard Healthy Home Assessment. Our experts deliver personalized lead education and locate hazards using various environmental tests.
